

# Single Page Applications (SPA)

Use CSS Media Queries  
to adjust to screen size

John Feiner

# Media Queries

## CSS Layout Breakpoints

```
img {  
    width:100%;  
    height:auto;  
}  
@media screen and (min-width:28em) {  
    img {  
        width:50%;  
    }  
}  
@media screen and (min-width:50em) {  
    img {  
        width:33%;  
    }  
}
```
